CAMPBELL, THE ORCHARD CITY OF THE FAMOUS SANTA CLARA VALLEY

Campbell INTER-URBAN Press

FOR THE BEST INTERESTS OF CAMPBELL AND COMMUNITY

Vol. 34, No. 14. CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA. FRIDAY, OCTOBER 7, 1927.

California Ranch News

The outlook for the 1927 crop of cotton in California continues to improve although the total national prospective crop continues to decline. This most desirable position of the California cotton growers, is largely due to the freedom from the major cotton pests and the development of "one variety cotton areas," based on good seed strains.

Despite the disaster of last winter, when unusually cold weather wiped out most of the celery planted in the Chula Vista district, growers are not discouraged, and this season will see another large acreage planted to the crop. The difficulties of last year, however, have placed growers on the alert, and they are preparing for frosts which may come just before harvest time. Planting is now in full swing and will be completed by the end of this month.

The annual Poultry Short Course opens at Davis on October 3, for six weeks. Members of the staff of the University of California will give most of the instruction, although there will be practical talks by commercial poultrymen, at least one each week during the course. Following the short course there will a conference on feeds and feeding at the University Farm, November 17, 18 and 19.

Soil cultivation is under way at Summerland for the planting of an extensive crop of wax beans for winter shipment. Last winter, landowners profited well through such a crop. In the Carpinteria Valley shipping of green lima beans is now going on, farmers having put out some 250 acres this year.

Stanislaus County Peach Day will be October 28 this year at Modesto, members of the Farm Bureau Horticultural Committee decided at a meeting last week. A tour will be held during the day, followed by a banquet in the evening, when winners of the Peach growing contest will be announced and results of efficiency studies given.

Despite a reduction of approximately 20 per cent in cotton acreage in the state this year, and an estimated reducion of 30 per cent in the aggregate yield of 500-pound bales of lint, cotton fields of the San Joaquin Valley will produce a golden harvest estimated at from $6,000,000 to $7,250,000 according to figures arrived at from government reports on acreage and yield and the present market price of cotton.

The demand for California pears, especially the Bartlett, Hardy and Clarigeau varieties in European markets is good, according to information recently received by the California department of agriculture from the United States Department's foreign representative. The prices received for California Hardys on the Liverpool market, the report indicates, are ranging around $7.00 a box, while Bartletts are bringing $5.35 to $5.85. Fancy California Gravensteins are selling at an average of from $2.50 to $3.00 a box. It is reported that the supply of American apples reaching the British market are far in excess of the demand.

The latest government report on the egg and poultry situation is more hopeful than for many months, according to C. V. Castle, assistant farm adviser in Los Angeles county. Receipts for August were 10 per cent below that for August 1926. The surplus of storage eggs is decreasing and shortage of fresh supplies at some markets has turned some buyers to storage eggs. Prices on eggs have advanced, but storage eggs are giving considerable competition to the lower grades of fresh eggs. Egg production is said to be rapidly falling off the Middle West which will help the producers of high-quality eggs on the Pacific Coast.

The value of the cotton crop in the Porterville section of Tulare county is estimated at between $800,000 and $1,000,000, by Lloyd Wickham, manager of the Porterville Cotton Gin. The local gin will handle around 3000 bales this season.

Unusually cool weather in August and September has delayed the ripening of grapes, particularly muscats in the Hanford section. Recently shipments have been around twenty-five cars a day, about 50 per cent below normal for this time last year.

Golden State
News of Interest to All

California continued to maintain third position among the ten leading building states during August, the valuation of permits being issued here valued at $29,088,740.

San Leandro claims the distinction of having the only California traffic officer equipped with an airplane and further boasts that its aerial traffic cop department is half as large as that of New York City. San Leandro has one airplane officer and New York two.

In search of new and more accurate data on the speed of light, Professor Albert A. Michelson, noted physicist of the University of Chicago, arrived in California last week. He will spend several months in research work at the Mt. Wilson Observatory.

The steamer "California," the largest boat ever built in America, was launched at Newport News, Virginia, last Saturday. This boat will be in the California to New York service of the Panama Pacific Lines and will make its maiden voyage in January, 1928.

Another pay roll was assured Los Angeles industry during the last week when the Western Concrete Pipe Company announced the purchase of forty acres on which to build a $300,000 factory which will employ 600 men. The property is situated at South Gate Industrial Center on Manchester avenue, and its cost was $220.000.

Nearly 100,000 persons entered California by automobile during August of this year, it is revealed in the report of the first actual count of passengers in automobiles crossing the State borders. A communication from the State Department of Agriculture to the Automobile Club of Southern California touring bureau shows that 43,536 persons in 13,022 cars entered via Southern California routes on the eastern border during the thirty-one days of last month.

Feeding fish by electricity is an innovation in trout rearing to be initiated by the Fresno County Sportsmen's Club in its rearing pond at Dinkey creek. Bright incandescent lamps have been placed at the ends of the pond, which will accommodate 50,000 young rainbow trout. The light is expected to attract myraid swarms of insect life at night, so that the trout may eat them.

October may be an "R" month, but it doesn't mean that it is any safer to eat mussels then than any other time, health officers warn the people of San Francisco. The Board of Health declares that the mussels from the beach section from San Francisco to Half Moon Bay, and from the purported commercial beds as well, have been polluted by some biological change that may take years to clear. It may never again be safe to eat the mussels from this section.

Operating of illicit stills, hidden in sylvan glades, will no longer be able to protect their investment by watching highways and woodland lanes when aerial plans of E. R. Bohner, federal prohibition administrater for California, are carried into effect. Bohner announced last week that within a few days an airplane "equipped with binoculars and a sense of smell" would take the air and sail here and there on a still-hunt. This will be the first use of airplanes for rum scouting in the history of California prohibition enforcement, Bohner said.

State traffic officers are to be returned to their motorcycles by an order issued last week by Frank G. Snook, chief of the state division of motor vehicles. During the past few years, Snook pointed out, there has been a tendency for the traffic police to forsake motorcycles for touring cars. The practice became so general that when Snook became motor vehicle chief nearly half of the traffic force were driving automobiles. Snook believes that the use of the motor cars has impaired the efficiency of the squad, particularly in view of the fact that the automobiles driven by many of the officers are incapable of matching speed with some of the more powerful cars they are called upon to pursue.

In order to decrease the number of accidents on the State highways the Railroad Commission announced its intention last week of adding a new general order to its code, covering auto stage passenger operators. The new order will require all stage operators to wire or telegraph the Railroad Commission immediately after accidents on their lines have occured. Directly after they have finished complying with the requirement they also will be compelled to submit a written report describing the accident in detail. These two stipulations in the order will enable the commission to institute an immediate investigation of highway accidents all over the State.

California Prosperity Is Still Growing--Farm Values Higher

California is economically sound!

Despite a growth by leaps and bounds probably unparalleled in any other equal-sized territory, the trend toward prosperity has been steady and substantial. A study made by the research department of the California Development Association compiling statistical data over a 16-year period, shows that California's net industrial income, including agriculture, lumbering, fishery products and value added by manufacturing has increased from $513,657,000 in 1909 to $2,147,501,000 in 1925, and defines clearly the reliability, prominence and steady increase of agriculture.

Mineral production, principally oil, has increased tremedously since 1920. Manufacturing industries have expanded rapidly. Although agricultural income has not equalled the record levels reached in 1919, at the peak of the period of inflation in production and prices, the amount and value of agricultural products has increased steadily since 1921. In addition to furnishing 30 per cent of the annual industrial income, farm products of the State furnish raw materials for the most important group of manufacturing, industries, the food industries, including canning and preserving plants, meat packing plants, creameries, rice mills and other processing plants.

During the period from 1910 to 1920, farm land values in California and in the United States rose tremendously, due to the stimulus of war time needs for food and the accompanying price inflation. From 1920 to 1925 there was a decline in farm land values over the entire nation. Of the leading agricultural states, California was the only one where the average value per acre of land in farms showed an increase between the two census periods, rather than a decrease.

Analysis of available acreage and production estimates for the current 1927 season indicates that the field crop acreage and production will be approximately the same as in 1926, that the bearing acreage of fruit will increase 82,098 acres, and the vegetable crop will acreage will also show some increase.

Forecasts based on production and price prospects, indicate that the total farm value of all crops will be slightly larger in 1926, and somewhere in the neighborhood of the total value of those crops in 1925. Indications are that the value of field crops will be about the same as in 1926, while the gross values of fruit and vegetable crops will be slightly larger than in 1926. The prospect is for a larger total income from livestock and livestock products.

TO OPEN SHORT STORY WRITING CLASS AT S. C.

Miss Rebecca N. Porter, novelist, short story writer and critic, will begin a course in Short Story Theory and Practice in Santa Cruz on Tuesday, October 4, 7 p. m. Santa Cruz High School.

Miss Porter has been one of the most popular and successful extension instructors for a number of seasons. She is not only a teacher of the art of fiction but is herself a successful writer in various fields.

The Munsey Company has just purchased her latest adventure serial, and a series of her articles will shortly begin in Scribner's Magazine.

The first meeting of the class is open to the public.

AT CAPITOLA

CAPITOLA-BY-THE-SEA, October 6.—Quite a colony of Santa Clara valley residents has been established at Capitola recently, with the purchase of summer or winter bungalows by residents of San Jose, Los Gatos, Santa Clara, Mountain View, Saratoga, Sunnyvale, Cupertino, Palo Alto, Campbell and other Santa Clara county towns. A recent survey by the Chamber of Commerce here shows the following making Capitola-by-the-Sea their official playground through the purchase of property here:

From Los Gatos: E. G. Caldwell, E. A. Estrade, Geo. A. Green, Harry Johnson, Mrs. Alice R. Mann, J. R. Thomas, J. W. Withers.

From Campbell: J. H. Campbell, S. N. Hedgegard, A. N. Lantz, D. McQueen, Olaf Strum, Mrs. Swope, Mrs. Martha E. Wade.

From Saratoga: R. A. Rusted, Oscar Pickert, Louise Thompson, and W. R. Worden.

P T A OFFICERS

The annual meeting of Campbell Grammar P.-T. A. was held at the school Tuesday and the election of officers made as follows: president, Mrs. A. D. Rice; vice president, Mrs. M. Allen; recording secretary, Mrs. W. Van Every; corresponding secretary, Mrs. Guy Farley; financial secretary, Mrs. Perriconi; treasurer, Mrs. Jess Collins; auditor, Mrs. S. N. Hedegard; parliamentarian, Mrs. M. E. Purmort; historian, Mrs. Helen Osborne.

The members at large are as follows: Mrs. I. R. Abbott, Mrs. C. Davidson and Mrs. J. M. Bollinger. The committeemen for the year are: hospitality, Mrs. W. Blunt; publicity, Mrs. R. Woeffel; membership, Mrs. F. Rego; program, Mrs. L. C. Shank; home economics, Miss Farman; finance, Mrs. Frank Lopes; thrift, Mrs. H. C. Hutton; home pre-school, Mrs. Stanley Smith.

In as much as the P.-T. A. is this year sponsoring Camp Fire Girls and Boy Scouts, Mrs. Shelley and Rev. J. H. Bennett gave short talks on their work.

It was reported that in the cafeteria an electric dish washer and mixer had been installed and now over 200 are being fed daily by this department.

Harvesting of the Kern county cotton crop started in all farm centers in the county last week, and 18 gins will be busy from now on in handling the early pickings, according to T. E. Dempsey of the Dempsey Ginning company, operating gins at Kern Lake, Connor, Lamont and Rio Bravo. Up to last week the ginning operations for the season have totaled less than 1,000 bales, stated Dempsey, and he estimated that the 29,000 acres devoted to cotton in this county will produce more than 30,000 bales.

If some men owned the earth they would try to dodge the tax-collector just the same.

HOLLAND STUDIED

The first study program on Holland which the Country Woman's Club will consider this year, was enjoyed Monday under the leadership of Mrs. Shaw.

The history of that small, but very interesting and important country proved extremely interesting and many memories were refreshed and new facts acquired.

Mrs. E. R. Smith gave a short account of how our own country was affected by the sojourn of the Puritan fathers in Holland before their departure to America.

An interesting discussion was a pleasant feature of the program.

One number which cannot often be enjoyed was the recital by Miss Sugars of a visit she made to the Netherlands a few months ago. First hand impresions and view points are always more interesting and Miss Sugars' comments were greatly enjoyed.

This is the first of several programs on this country.

NOTICE

The P.-T. A. of Campbell Union High School meets in business session, Tuesday, October 11, at 3 o'clock, in the High School. A worthwhile project for the year's work should demand the attention of all high school parents who can possibly come out to the meetings. Come and hel pto carry out the plans. Membership for the year 50 cents.

COUNTY CONSOLIDATED CONVENES AT CAMPBELL COMMUNITY CENTER

Prune Week To Be Held in November

Final plans for Santa Clara County's annual Prune Week in November and Consolidated's endorsement of plans of the Board of Supervisors in entering the Pacific Foreign Trade and Travel Exposition to be held in San Francisco, November 11 to 20, were the high lights in the monthly meeting of Santa Clara County Consolidated Chambers of Commerce held at luncheon in the beautiful library at Campbell, Tuesday, October 4.

In the absence of Wendell C. Thomas, president, C. H. Whitman of Campbell presided. After a "welcome" by Guy Farley, president of Campbell Chamber of Commerce, a response by Ray Smith, Secretary of Palo Alto Chamber of Commerce, and the introduction of those present, a nominating committee composed of Dr. W. I. Wilcox of Santa Clara, Mrs. I. L. Colbath of Los Gatos, L. C. Renn of Saratoga, Max Crow of Gilroy and E. K. Roberts of Sunnyvale was appointed by the chair to suggest nominees for the annual election of officers to be held at the next meeting.

Dr. W. I. Merrill of Campbell, chairman of Consolidated's sanitation committee, reported that he had received a letter from the War Department, Washington, D. C., sanctioning the committee's plan of of making a survey of Santa Clara county to determine the cost of the proposed sanitation project that has been under consideration for two years . The maximum cost of the survey will not be above $5000, according to experts; the survey to be made to determine the actual cost of the project to the taxpayer. He pointed out that the county is fast becoming a residential district and the importance of a sewer system to care for this increased population. He urged the cooperation of all in seeeing the survey through.

Prune Week plans were announced by W. F. Powars, charman of the committee. The five pound box is to retail at 60 cents, the merchant being allowed 10 cents for handling, and the carton for mailing to sell at the actual cost of 5 cents.

Russell Pettit, who was in charge of the county exhibit at the State Fair, reported the excellent advertising obtained there and passed around prize winning ribbons and pictures. He also reported that most of the State Fair exhibit had been on display in the lobby of the Oakland Bank during the recent two weeks and that it was estimated by bank officials that more than 100,000 people saw it.

A. L. Hubbard announced that the Board of Supervisors had arranged for a large space 20x20 feet in the center of the Civic Auditorium in San Francisco for the Santa Clara County dried and canned fruits in connection with the Pacific Foreign Trade and Travel Exposition, November 11 to 20. Consolidated unanimously endorsed the board's action and thanked it through Hubbard, for the excellent spirit of cooperation in advertising the county. Russell Pettit, of the San Jose Chamber of Commerce, will handle the arrangements and install the exhibit

Ray Smith of Palo Alto announced that he was going East next week to attend the National Association or Commercial Organization Secretaries at Columbus, Ohio, October 22 to 26. It was voted that fifty pounds of stuffed prunes be sent back with Smith for the purpose of advertising the county at this convention. A committee composed of Mrs. I. L. Colbath of Los Gatos, Ray Smith of Palo Alto, and Russel Pettit of San Jose were appointed to handle the necessary details.

The next meeting of Consolidated will be held at Santa Clara, November 1.

Those present were: G. E. Farley, C. H. Whitman, W. I. Merrill L. M. Beall, Carl B. Field, Harry C. Smith, T. A. Cutting, R. G. Archibald and E. R. Kennedy of Campbell; Max J. Crow and Perry Buckley of Gilroy; Mrs. I. L. Colbath of Los Gatos; Alfred Sealle and Ray W. Smith of Palo Alto; W. F. Powars, A. L. Hubbard, W. M. Godfrey, and Russell Pettit of San Jose; W. I. Wilcox of Santa Clara; W. P. Wilkinson and L. C. Renn of Saratoga; Mike S. Kirkish and W. K. Roberts of Sunnyvale.

TEACHERS HONORED AT SCHOOL RECEPTION

The reception given in honor of the local teachers by the P.-T. A. on Friday last, at the Campbell Union Grammar School was a very happy affair.

The kindergarten, beautifully decorated by Mrs. Guy Farley, with dahlias from the Scholtz garden, and other late summer flowers, was like a large,homey, living-room, with just the atmosphere for a 'get-acquainted party.'

Mrs. Cramer called upon Mrs. A. D. Rice and Mrs. S. N. Hedegard, presidents of the Grammar School P.-T. A. and High School P.-T. A., respectively, who spoke a few words of welcome. Then the teachers of each school were introduced by their principals, Mr. Ira Abbott and Mr. D. H. Cramer. After the appplause that greeted their introduction had died away, Mr. Benjamin Edwards, who has charge of the music department of the Campbell Union High School night school, was presented and sang two pleasing baritone solos, accompanied by Mrs. Edwards. As they had to hurry away to keep another appointment at 9:30, a short time was given for all to meet and greet them.

Following this, a game, "speak to your neighbor and inquire her birthmonth" was played and heartily enjoyed. Mrs. Bernice Saveker, in ten minutes, had spoken to 67 and written their answers. Miss Steele, the kindergarten teacher was second with 38. Both showed distinctly that they are good mixers.

Then the different months, thus located in the game presented some stunt and a real novel entertainment followed.

Refreshments of ice-cream, topped with crushed strawberries and dainty wafers were served in the cafeteria under the efficient chairmanship of Mrs. Woeffel, bringing to a close another red-letter time in the history of Parents and Teachers of Campbell schools.

REBEKAHS SURPRISED

The district deputy president, Viola Brown, paid an official visit to Ada Rebekah Lodge Tuesday evening and gave the unwritten work. A number of other visitors were also present.

The noble grand has requested that all applications for membership be presented at the next meeting.

An interesting social hour was provided by the committee, Emma Main, Evaline Grant and Martha Phillips.

Vocal solos, Miss Honeywell, San Jose radio artist; Whistling Solos, Arthur Downing Jr.; accordion and harmonica numbers, Jos. Bohnett; Monologue, Mrs. Latham; reading, Miss Ruby Howes. This was followed by a service of delicious refreshments.

On October 22, the lodge will sponsor a card party, with Mrs. Catherine Burns as chairman of the committee.

HUGE PAVING PROGRAM AT SANTA CRUZ

Within a few weeks, Santa Cruz will have more miles of newly paved streets than any other city of similiar size in America. A huge paving campaign has been carried on for nearly a year, during which time Pacific avenue, the main thoroughfare of this city, as well as miles of other streets have been paved. Soquel avenue from Seabright to the city limits is about ready for paving. The pouring of concrete will start in a few days. In addition to the stret improvements, a storm and sanitary sewer system will be completed in a few weeks.

Practically all roads leading into Santa Cruz are reported as being in good condition.

Love is responsible for a good many frosts in summer and for a few hot waves in the winter.

A woman begins to sit up and take notice when other women say nice things about her husband.

Cong'l Church

Next Sunday, at 11 a. m.—Subject: " God's Unquenchable Fire." Childrens talk—"Our Words." At 7:30 p. m.—Young people will present a play entitled "Out of the Bible."

Offertory for Church expenses.

Rev. Bennett would be glad to visit any parent to discuss the scout work. He welcomes any boy over 12 years of age. For the time, the group under 12 years is filled.

M. E. CHURCH NOTES
W. C. Robins, Minister

October 9—Bible School meets at 9:45, with a good opening program, followed by class study of great interest. Adults, high school and college students are well cared for.

At 11 a. m.—Rally Day program with brief talks by officers and pastor. Epworth League meets at 6:30. A program of song and discussion.

7:30—Lively gospel song servicce and address by pastor.

Wednesday, 7:30—Church family night with prayer and bible study.

You will be Welcome.

GREAT TIDE OF SENTIMENT IN FAVOR OF HOOVER

A Los Angeles newspaper is now taking a poll of the newspapers in the State in regard to their preference, among a number of potential candidates, for President of the United States. The ballots sent out by this newspaper has the name of Herbert Hoover at the head of a list of some four or five candidates, and it is our guess that Hoover's name will be in the lead of all of the rest combined.

From every point of the compass there comes a tide of sentiment favoring Herbert Hoover for President next year. We believe this tide will keep going and gain strength as it goes until Herbert Hoover shall be given the Republican nomination. He is the strongest man in sight today.

The Democratic party, on the other hand, is in a quandary; they are practically committed to Al Smith, an avowed wet, and advocate of repealing, or at least modifying the Eighteenth Amendment; but the great rank and file of the Democratic party is not wet, and is not in favor of either repeal or amendment. Especially is this true in the so-called "Solid South," and if Al Smith is nominated by the National Democratic convention, the "Solid South" will surely be broken.

It looks like next year will develop more interest in the presidential campaign than we have seen since the old days before the war. — Mt. View Register-Leader.

SOME FACTS TO CONSIDER

No nation in the world can show such electric development as the United State. No people in the world enjoy such electrical convenience as do our citizens.

To illustrate how such service is given, take a typical company like the North American. It is one of a number of large electric companies serving our 115,000,000 people.

It has interconnected power and light lines serving 1,032,908 customers in seven states from Ohio through the Middle West to the Pacific Coast.

Its consolidated balance sheet shows assets totalling nearly $700,000,000, and its stock is owned all over the country.

When public ownership advocates propose putting the State or the Government into the electric business, figures like these are of interest. To duplicate the service rendered by just this one company, the public would have to invest nearly three quarters of a billion dollars. Then, instead of getting upward of $10,000,000 a year taxes, which a private plant of this kind pays, the public would have to make up that amount by increased taxes on other property, as publicly owned plants pay no taxes.

These are a few of the practical facts which must be considered when our socialistic friends try to hypnotize the taxpayers into authorizing the building and operation of politically owned enterprises.

MY HOME TOWN

My city and my community owe me nothing. If accounts were balanced to this date, I would be the debtor. Haven't I, all these years, lived within its limits and shared all of its benefits?

Haven't I had the benefits of its schools, churches and hospitals? Haven't I had the use of its library- Haven't I had the protection of its police, fire and health departments? Haven't its people, during all this time, been gathering for me, from the four corners of the earth, food for may plate, clothing for my body and material for my home? Hasn't my city furnished the patronage by which I have succeeded in my profession (or business)? Hasn't it furnished me the best of friends of my life, whose ideals have been my inspiration, whose kind words have been my cheer and whose helpfulness has carried me over my greatest difficulty? What shall I give in return? Not simply the taxes which cover so small a part of what I have received. I want to give enough so that I can rightfully say, "This is my home town." So that I can take pride in its prosperity, in the honor which comes to its citizens, and all that makes it better and greater. In this way only I, in a small way, pay the great debt I owe to my city, my community, my State and my country.—Buffalo, N. L. Realtor.

BASEBALL AT NIGHT

Electricity is now scheduled to bring professional baseball at night. It has already fooled the hens and caused them to lay eggs overtime, raised plants where formerly only darkness prevailed, has furnished food for trout farms by causing bugs to fly to the water, freezes ice, curls milady's hair and does so many other unhear of things, that lighting a baseball diamond at night will seem tame in comparison.

A short girl gets around it by making the stripes on her skirt run in the opposite direction.

A Savings Inducement

Savings depositors in the American Trust Company, and those contemplating opening savings accounts, are reminded that funds deposited on or befope October 10 will earn interest from October 1. There is no better time to start a savings account or to add to present deposits than the first ten days of this momth. Savings earn interest at the rate of four per cent, compounded semf-annually-

You are given a hearty invitation. Come.

Town Tales Tersely Told

Chamber of Commerce, Monday.

BORN—To Mr. and Mrs. C. E. York, a son, Allen Charles, Thursday, September 30.

Mrs. Ruth Ortman returned Tuesday from a week's visit at Sacramento with her sister, Mrs. Rice.

Mrs. W. R. Cole arrived recently from Massachusetts for a visit with her daughter, Mrs. R. A. Shearer.

Mr. and Mrs. F. M. Gattrell and Mr. and Mrs. R. F. Mathis have moved into adjoining cottages on Rincon avenue.

C. M. Smith, who had spent the summer in Minnesota, returned to Twin Lakes, Tuesday, visiting in Campbell over night.

Through an error in last issue Cecil Cutting instead of Windsor was mentioned as returning to Stanford. Cecil is enrolled in the Junior College in San Jose.

Mrs. W. H. Stray was sufficiently recovered from her recent serious illness to be brought home Sunday and the last report was of her continued improvement.

The many friends of W. T. Morton, who is now in San Jose, will be pleased to hear of continued improvement and will hope to see him out again before long.

Mr. S. L. Hayes and son, Jesse, left last Thursday for Oregon, where they will visit Mr. Hayes' sister, Mrs. Andrew Vercler, planning to be gone for a week or more.

E. C. Merrill has purchased of Luman Gard his truch and trailer and trucking business. Mr. Gard is intending to move to Watsonville, where he has a 40 acre ranch that he will work.

The California Cannery Concluded its season's run on pears Wednesday. The J. C. Ainsley Packing Company finished on green fruit several days ago and is now packing fruit salad.

The J. D. Blaine home was the scene of a family gathering over the last week-end. Miss Laura was here from Gilroy, Miss Margaret from Paso Robles and Mrs. Pauline Jameson and baby from Oakland.

Miss Helen Kalas went to Stockton Tuesday to attend a piano recital given by her sister, Miss Bozena Kalas, who is one of the faculty of the music department of the College of Pacific. The concert passed off very successfully and the artist teacher acquired additional laurels.

Chamber of Commerce, Monday.

Chamber of Commerce, Monday.

Campbell Grammar School enrollment has climbed to 725 pupils taxing the building to its present capacity.

Mrs. W. G. McCaughey, mother of Mrs. T. A. Robinson, W. C. and Ben McCaughey is seriously ill at her home on Sunnyside avenue.

John B. Kendrick of Wallingford, Conn., visited his cousin, Miss Emma J. Miller for the week going on south today to visit other relatives.

Miss Mell M. Sugars of Los Angeles, is the guest of her friend, Mrs. George W. Page. Miss Sugars recently completed a two years' visit to several foreign countries.

Mr. and Mrs. Hal Tuttle left Monday on a two weks' auto trip to Pocatello, Ida., to visit her relatives. She went via Reno and will return by the way of Spokane and Portland.

Mrs. Cynthia A. Palmer celebrated her 86th anniversary Wednesday by having a family party at her house. One happy feature of the occasion was a set of moving pictures taken by Herold Morton, grandson of the honored lady.

George E. Hyde's auto was crashed into at the intersection of Campbell and Central avenues Tuesday morning by a car driven by Mr. Fantozzi. Little damage resulted to the Hyde car but the other lost a wheel in the mixup. Nobody hurt.

Miss Isabel Silva, one of the fore ladies of the George E. Hyde and Company was recently presented with a beautiful white gold ring, set with a diamond and rubies. It was a gift from the 35 girls who had accompanied Miss Silva to the California Cannery to help finish the season in pears.

George Whitney had a narrow escape from a fatality while working at the J. C. Ainsley plant last week. A timber gave way with him letting him fall abuot 12 feet. He struck on his head and hip which were badly bruised necessitating the use of crutches for awhile. He was fortunate in the fall and will be on the rest shift for only a short time.

Dad and Mrs. W. D. Sturtevant arrived home Tuesday after a nine day auto trip from Lake Ronan, Mont. Dad has been enjoying the time of his life there with friends for five months and would have remained longer but the snow began to assemble on the peaks of the Rockies and he feared a winter tie-up. Mrs. Sturtevant spent part of her vacation East with relatives.

PLAY ESSAY CONTEST

Campbell Theatre is a Campbell institution, and we consider it our duty to "do our bit" towards promoting Campbell's growth and help make it a better place to live and invest money in homes and business enterprises, and we know of no better way than to give you good clean entertainment and help to instill high ideals. A picture theatre is an absolute necessity in any town and if run in the proper manner, can be a great help to the community in many ways. It is our desire, and intention, to always give you the very best pictures is not only the only way we can help our town, there is dormant talent in every town due, in a great many cases, to a lack of opportunity to try it out, or exercise it. With this fact in view, we are going to put on a series of contests to help bring out this talent. The first of the series will be an Essay Contest, open to all students of our schools. This contest will start in October and end in June and to make it interesting and worthwhile we are going to give cash prizes amounting to $100 to the winners. First prize, $50.; second. $35; third, $15. The contestants are to write an Esay on one picture each month, the name of the picture will be announced on the screen before it is played, and the winner will be announced on the scren each month, and the winner of the series will be awarded their prizes at the end of the contest. Profesor D. H. Cramer, Campbell High School, Professor I. R. Abbott, Campbell Grammar School and Mrs. S. N. Hedegard, president of P.-T. A. have kindly consented to receive all Essay's and turn them over to the judges and print the winning Essay each month in Campbell Press. Address all Essays to Campbell Theatre Essay Contest in care of Campbell Press.

—S. R. Doods.

H. W. Postlethwaite, of the Valley Packing Corporation at Riverside, estimates that the 1927 crop of dates in the Coachella Valley will approximate 1,250,000 pounds. The Mon[illegible]via plant of the company has started the packing of early dates, including the Khadrawi, a soft Persian variety. The company will pack 200,000 pounds of fruit this season, it is estimated.

Peach packing at the Marysville cannery this year was curtailed by the lateness of the ripening. The schools opened a week before the peaches ceased coming in and the cannery was unable to keep enough help to run to capacity. For that reason, Manager Clyde Sheets told the Lions' Club, the output was but 156,000 cases, or 3,860,000 cans. The plant used 3,300 tons of peaches in making this pack. The plant was in operation forty-five days and paid $75,000 to its employes. Some girls made as high as $65 a week. Sheets stated that the state's total pack of peaches this year is estimated at about 10,000,000 cases, or 240,000,000 cans.

The first move toward consolidation of the olive growers of Tulare county into one cooperative association was taken at a meeting of the stockholders of the Lindsay Ripe Olive association last week when that body voted to release 500 shares of stock for the purpose of taking in 300 additional acres of olives in this county.

Fruit shipments from Kern county for the last week totaled 29, 122 lugs and 278½ carloads, Whit C. Barber, county horticultural commissioner reports.

The sugar beet crop at Clarksburg, Yolo County, about 2,400 acres, is being harvested at present and a large tonnage is being shipped daily from Lisbon over the Sacramento & San Francisco Railway.

Lodi set a new record for grape shipments when there were 283 cars shipped from that district, the largest single day's consignment in the history of the grape industry. This lot brought the total shipment for the season up to 3,794 cars from the Lodi district.

Battleship Assigned To Santa Cruz

Admiral L. R. de Steiguer of the Pacific Battle Fleet, on board the U. S. S. Flagship California, has sent former lieutenant-governor W. T. Jeter of Santa Cruz the following message:

"It is expected that a battleship will be assigned to Santa Cruz for Navy day celebration, but at present I am unable to state definitely what ship will be designated. As soon as the schedule is made out I will notify you of Santa Cruz's assignment.

From my own recollection of the welcome extended by yourself and the city officials, I feel sure that the ship designated will find the assignment a pleasant one."

BOY SCOUT TROUPS

New scout formations under the supervision of Rev. J. H. Bennett, Campbell has now three new scout troops.

The Sea Scouts, a senior branch of the work, has now one complete boats' crew and a second one in formation. This troop is for lads over 15 years of age. Mr. Worthin Grattan is the skipper.

The boy scouts for lads between 12 and 15 years has only a few vacancies. It is intended for a few months only to have two patrols until these are thoroughly trained. Mr. Bennett is giving this section his personal services.

The Cub Scouts, for boys under 12 years, is already over-full. Cecil Cutting, who is in charge has 30 boys. Mr. Bennett will be glad to visit any parents to give them information.

It is hoped as soon as finance allows to arrange the ground around the Congregational Church so as to allow for games, drill and scout work out of doors on fine nights. Lights will be arranged and the ground suitably leveled and hardened.

A special "Den" for indoor work has also been provided. It is interesting to note that the regular organizing of the Cub Scouts, known in England as the Wolf Cub is quite new to America. Probably Campbell is a pioneer as far as this State goes, in this section of the work.

The Sea Scouts meet on Tuesdays at 7 p. m., the Cub Scouts on Thursdays at 3:45 p. m. and the Scouts on Thursdays at 7 p. m. all in the Congregational Church Hall.

No religious distinctions are made. The aim is the boy. Dr. W. I. Merrill, and Mr. Walter Stray, have consented to act as Troop Committee.

Chamber of Commerce, Monday.

Congressman Charles F. Curry's proposed national legislation pledging the Federal government to stand one-third of the $51,000,000 cost of Northern California's flood control project was last week declared "fair and reasonable" by Congressman John Q. Tilson of Connecticut, Republican floor leader in the House of Representatives. Congressman Tilson completed a tour of the flood control districts last week. Under Congressman Curry's bill the State government, the Federal government and the land owners would each stand one-third of the total expense of flood control work.

Chico, Butte County, has been assured of the construction in the city limits of a powdered milk and by-products plant which will use, 60,000 pounds fo raw milk a day, the product of 2,500 dairy cows. This is the announcement made by S. L. Bainbridge, city councilman and president of the Chico Real Estate Board. The plant will be ready for operation and contracts will be signed by dairymen by January 15th. It will represent an investment of abcut $40,000. It is estimated that the cash returned to farmers will approximate $33,000 per month.

A substantial growth in commerce and industry in California for the fiscal year ended June 30, 1927, is shown by figures compiled by the statistician of the state banking department. In making a general estimate of progress throughout the state the figures for total resources of banks operating in the state were used as a general guide to the progress of commerce and industry. The figure for June 30, 1926, was $3,706,466,000, which represented an increase of $214,081,000 over the previous year or 6.1 per cent. The total for the present year is $3,833,938,000, an increase of $127,492,000 or 3-4 per cent over the total for 1926. This constitutes a lesser gain than that recorded for 1926 but it is nevertheless a very substantial one.

Plans for the San Joaquin County Water Pageant and Regatta to be staged in Stockton October 1 and 2 have gained such momentum that they are requiring the attention of 150 active committeemen. A two-fold purpose behind it, the regatta will serve as a celebration over Federal recognition of the $6,000,000 Stockton deep water project and as a medium for reviving water sports in that city. Stockton, at one time, was one of the leading cities on the Pacific Coast in water sports. Committeemen for the coming regatta will serve as a nucleus for the Stockton Regatta Association which will sponsor annual regattas in that city.

The state-wide epidemic of infantile paralysis, which has been prevalent in California since early Summer, shows no signs of abatement in the number of new cases reported to the state department of public health last week. In that period seventy-one cases were reported, which is only a trifle above the average for the preceding several weeks. Dr. C. H. Halliday, chief epidemiologist of the department, stated last week that in his opinion the peak of the disease has been reached in Superior California, and that succeeding weeks will show a steady decrease.

Taxes '27

Office of the Tax Collector, County of Santa Clara, State of California.

San Jose, California, October 1, 1927

NOTICE IS HEREBY GIVEN that the Taxes for the fiscal year, commencing July 1, 1927, and ending June 30, 1927, will become due and payable.

FIRST INSTALLMENT. The tax on all personal property, a lien on or secured by land, and one-half of the tax on all real property will be due and payable Monday, October 17, 1927, and delinquent Monday, December 5, 1927, at 6 o'clock P. M. when 10 per cent will be added to all of said first installment remaining unpaid.

SECOND INSTALLMENT. The remaining one-half of the tax on all real property will be due and payable January 9, 1928, and delinquet April 30, 1928, at 6 o'clock P. M. when 5 per cent will be added to all taxes remaining unpaid.

Taxpayers may, if they desire to do so, pay the whole tax at one payment.

For the purpose of receiving taxes I will be in the sever l townships of the county as follows:

CAMPBELL

At the Mercantile Trust Company Bank, in the Town of Campbell, on Wednesday, October 26, 1927, during banking hours.

And at the Tax Collector's Office in the Hall of Justice Building, cor. St. James and Market Streets, San Jose, California, daily, Sundays and legal holidays excepted, from 9 o'clock A. M. to 5 o'clock P. M., to and including Monday, April 30, 1928, at 6 o'clock P. M.

The Second Installment is payable Tax Collector of Santa Clara County. in the Tax Collectors Office San Jose.

THOMAS BODLEY,

Santa Barbara Road Now in Good Shape

For the first time in two and half years, the highway into Santa Barbara from the south is clear of all construction hindrances, according to the touring department of the National Automobile Club. The road is wide open now, the last remaining section of one-way traffic just north of the Ventura bridge having been eliminated.

High Sierra Report Splendid Hunting

The high Sierra carry promise of excellent deer hunting this year, according to reports received by the touring department of the National Automobile Club. Hunting is reported unusually good in the vicinity of Fish Camp and Wawona, probably due to the fact that trese places are in such close proximity to Yosemite National Park. Saddle and pack animals may be obtained at those locations at an average charge of $2.50 per day.

Round after round is the way the pugilist ascends the ladder of fame.

Many a seemingly successful man owes it all to his wife's father.

Included in the record breaking United States exports to the Far East during the 1926-27 period, were automotive products valued at $88,282,000.

A guest may be as glad to go as the host is to have him go.

1926 MARIN COUNTY REGISTRATIONS

Marin county's motor vehicle registration last year totalled 9038, according to the California State Automobile Association.

We "launder" the Gas before you get it

It comes to you clean

The gas used in your home for cooking, water heating and house heating is delivered to you clean.

Right after gas is made it passes through large "scrubbing" tanks. Then it goes through purifiers. Only pure gas that burns clean passes into the pipes that lead to your home.

That is why gas is a clean fuel.

And gas is all fuel. When you want heat, it is instantly ready—to burn gently for a second or two or to burn vigorously for hours.

Because gas is so clean and convenient, a gas range, gas water heater or a gas-fired furnace saves your time and effort.

SUMMONS
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF SANTA CLARA.

HERMAN HORTON KOOSER
Plaintiff vs.
CORA E. GILLESPIE and CORA E. GILLESPIE as Sole Trustee of T. J. GILLESPIE PLANING MILL CO., a defunct corporation, also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

SUMMONS—

THE PEOPLE OF THE STATE OF CALIFORNIA send greeting to CORA E. GILLESPIE and CORA E. GILLESPIE as Sole Trustee of T. J. GILLESPIE PLANING MILL CO., a defunct corporation, also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the Complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY DIRECTED to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara within ten days after service on you of this Summons, if served within this County or within thirty days if served elsewhere.

The object of the above entitled action is to obtain a judgement and decree of said court that the plaintiff, Herman Horton Kooser, is the owner in fee of all that certain real property Situate in the City of San Jose, County of Santa Clara, State of California, Bounded and described as follows, to wit:

BEGINNING at a point on the Southerly line of San Carlos Street distant thereon Eighty (80) feet Easterly from the common corner of Lots 69 and 70 of the Subdivision of the Los Coches Rancho on said Southerly line of San Carlos Street; thence Southerly on a line at right angles to said Southerly line of San Carlos Stret, being the Easterly line of the property conveyed by the T. J. Gillespie Planing Mill Company, a corporation, to I. B. Knowles by Deed dated July 25, 1892, and recorded July 26, 1892 in Liber 150 of Deeds, page 324, to its intersection with the Northwesterly line of the lands of the South Pacific Coast Railroad Company as described in the Deed to said Railroad Company recorded in Liber 40 of Deeds, page 624, records of said County of Santa Clara; thence Northeasterly along the Northwesterly line of the lands of said Railroad Company to its intersection with said Southerly line of San Carlos Street; thence Westerly along said Southerly line of San Carlos Street Two Hundred forty-five and 8-10 (245.8) feet, more or less, to the point of beginning, being a triagular portion of Lot 70 of the Subdivision of the Los Coches Rancho as shown on a Map thereof of record in the office of the County Recorder of said County of Santa Clara in A of Maps, page 47, records of said County.

And also to obtain the further judgment and decree of said court that all adverse claims made by you or either of you are wholly without merit and absolutely void; that plaintiff is the owner in fee of said property as above set forth, and that you and each of you be forever barred and restrained from claiming any or asserting any claims of any nature relating to said property, or any part thereof adverse to the plaintiff.

AND YOU ARE HEREBY NOTIFIED that unless you so appear and answer as above required, the said plaintiff will apply to the Court for the relief demanded in said complaint.

Given under my hand and seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 17th day of August, A. D. 1927.

HENRY A. PFISTER,
Clerk.
By B. I. McCARTY,
(Seal) Deputy Clerk.
BOHNETT, HILL & CAMPBELL,
Attorney for said Plaintiff.

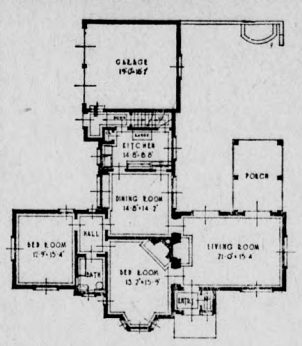
Plan of Architect's House Has Strong Appeal to Home Lover



DESIGNED as a residence, this charming one-story structure serves as an office for its architect, Kenneth W. Dalzell of Maplewood, New Jersey.

The touch of the master craftsman is apparent in the handling of line and mass, for although the house is small, it has a character that is both substantial and graceful. The floor plan has been judiciously worked out, two purposes evidently having influenced its arrangement—the first being the attainment of a practical interior and the second the production of an interesting exterior.

The walls of concrete masonry are finished in white stucco, contrasting pleasingly with the dark slate roof. Perhaps the most interesting characteristic of the interior is the fireplace unit with its two hearths, one in the living room and the other in the corner of the large main bedroom.

An impression of stateliness is given the living room by its fireplace at one end and the tall, semi-classical windows opposite. The proportions of the room help carry out this effect. The adjoining porch adds to the serviceability of the residence during the warm months of the year.

A two-car garage is connected directly with the kitchen, making it possible for the owner to go directly to his car during inclement weather without leaving the house.

Orchardists of Sutter county are promoting a movement for the establishing of a plant at Yuba City for the manufacture of alcohol for scientific purposes, as a means for disposing of surplus fruit, especially peaches that do not come up to the cannery standard.

The sixteenth annual fruit growers and farmers' convention has been tentatively set for Stockton, November 17th and 18th, it is announced by G. H. Hecke, director of the state department of agriculture. The convention this year will be devoted to marketing.

The world production of prunes in 1927 is estimated at approximately 269,000 tons of which California will produce about 211,000 tons, all of this may not be harvested but it is the largest production that this state has ever had. There is a market for these prunes if it is sought for in the right way, but after obtaining it, the big thing is to hold it.

A six day short course in Deciduous Fruits and Grapes will be held at the University Farm, Davis, during the week of November 28, it is announced by the Pomology Division of the University of California. This course, it is announced, will cover nearly every phase of the fruit industry in the state; and topics not touched upon by the program may be brought before the staff of instruction at a question box session on Wednesday night, November 30.

Harvesting of potatoes and onions is about finished in the Holland district, all growers reporting a good crop. Sixteen hundred acres were planted to onions and 1,200 acres to potatoes. Most of this crop was shipped by rail from Lisbon on the Sacramento & San Francisco Railway, 339 carloads being shipped to date, 164 cars of potatoes and 175 cars of onions.

Placer County's Levi cling peach crop has virtually all been wrapped and shipped to eastern markets. It is estimated that about 4,000 tons were shipped that way. Returns from the early sales do not seem to indicate that the hopes of a price equal to 80 cents a box, f. o. b., will be realized, as the peaches are selling for little better than $1 a box delivered. At the beginning of the season, some Levis went out on an 80-cent basis, f.o.b.

According to figures released by the Canners League of California the 1927 pack of canning peaches totaled 10,255,179 cases. With this announcement comes the realization that the price can not exceed $25 for the 1927 crop. Growers generally are reconciled to the situation and express the hope that the pack will move into consumption and thus clarify the situation for the coming year.

A protest against the Interstate Commerce Commission's postponement of a freight rate reduction on deciduous fruits from California to the East was filed in Washington last week by the California Growers' and Shippers' Protective League, Associated Press dispatches reported. The protest declared that any postponement of a reduction would be a great burden on the California fruit shippers, particularly the grape producers, whose crop is beginning to move to market.

Chamber of Commerce, Monday.

Quite a number of men have managed to mount the ladder of fame by hanging on the coat tails of others.

Women Will be Given Free Driving Lessons

The women of Essex county, New Jersey, are to be given free instruction in automobile driving, according to information received by the National Automobile Club. The Newark safety council has decided to institute a course which will include one lesson a week for five weeks, followed by practical road tests to be given prior to the time when application is made for a State driving license. The course will also comprise lessons in mechanical details and repair work.

California Timber Losses Decreasing

California's timber loss for 1927, through forest fires, has been the lowest in years, according to the National Automobile Club. Although there have been a number of brush fires throughout the State, they have been controlled before sweeping up into the forest areas, and the number of fires occuring has been slightly less than usual.
